

SUMMARY

A hard-working student with an eagerness to learn new skills and technologies. A reliable and dedicated person who can handle multiple tasks at a time. Furthermore, I have good communication skills and a good grip on multiple programming languages.

EDUCATION

Comsats University
Bachelor of Science in Cyber Security
Feb 2022 - Present
CGPA:3.46

Roots International
HSSC- ICS
March 2019 - June 2021
Percentage: 82%

SKILLS

- Kali linux administration and tools
- Web pentesting expertise
- C++
- Java
- Python
- JavaScript
- HTML
- CSS
- SQL
- MongoDB

CERTIFICATIONS

- **Huawei**
HCIA - Security
- **Udemy**
Java Masterclass
- **TCM Security**
Practical Ethical Hacking
- **Hack the box**
Bug bounty pathway

PROFESSIONAL EXPERIENCE

Cyber Security Intern
IOTA Solutions | 2024 June - 2024 July

- Linux Administration
- Practical implementation and hands on experience of the VMware vSphere virtualization products
- VPN and IPsec
- Understanding Wazuh architecture
- Deployment of Wazuh
- Adding integrations in Wazuh including FIM, Virus total, SMB and many more

PROJECTS

Process Manager with Virtual Memory Management

Developed in C++ having the following features:

- Process creation, automatic and manual scheduling using round robin, JSF etc
- paging and virtual memory allocation

Vulnerable Web Application

Developed in MERN stack having the following features:

- vulnerable to NoSQLi, XSS, SSRF and path traversal

Super Market Management System

Developed in JAVA utilising the concepts of OPP, having the following features:

- Adding, removing, updating and buying stocks using GUI interface
