

MUHAMMAD ABDULLAH

OFFENSIVE SECURITY ANALYST

Bahria Town, Islamabad | muhammad.ab2024@gmail.com | [Linkedin Profile](#) | [Portfolio](#) | +92 3145794466

SUMMARY

Cybersecurity professional focused on offensive security, with hands on experience in Penetration Testing and Security Operations Center (SOC) environments. Skilled in identifying vulnerabilities, assessing network and web application security and analysing security events using SIEM solutions. Passionate about identifying security weaknesses and continuously expanding my technical expertise.

PROFESSIONAL EXPERIENCE

Secureism | Penetration Tester

April 2026 - Present

- Conducted comprehensive vulnerability assessments and penetration tests across network infrastructure and web applications
- Identified and validated security vulnerabilities, including common OWASP Top 10 issues
- Used industry-standard offensive security tools (Burp Suite, Nmap, Metasploit, Nikto) to identify, exploit, and document critical security flaws

CyberX Soft | Cyber Security Analyst

Feb 2026 - April 2026

- Contributed to the enhancement and maintenance of the SOC lab environment
- Configured and deployed endpoint agents to improve security monitoring and visibility
- Integrated enhanced logging and implemented detection rules to identify malicious events

EDUCATION

Comsats University Islamabad

Feb 2022 - Jan 2026

Bachelors of Science in Cyber Security

- **Majors:** Network Security, Information Security, Digital Forensics, Wireless Security, Penetration Testing, Vulnerability Assessment and Reverse Engineering, Operating Systems and Programming Fundamentals

PROJECTS

Real Time Malware Detection and Prevention System

The project has the following features:

- Real time malware detection using system calls and HMM based anomaly detection
- Automated malicious process containment

TECHNICAL SKILLS

- **Offensive Security:** Penetration Testing, Vulnerability Assessment, Web Security (OWASP Top 10), Network Security
- **Defensive Security & SOC:** Threat Monitoring (SIEM), Incident Response, Risk Assessment, Cyber Deception
- **Security Tools:** Burp Suite, Metasploit, Nmap, Wireshark, Nessus, Wazuh, Kali Linux

CERTIFICATIONS

- **Huawei:** HCIA - Security
- **Hack The Box (ongoing):** Certified Penetration Testing Specialist (CPTS)
- **LetsDefend:** SOC Analyst Pathway
- **TCM Security:** Practical Ethical Hacking
